

## **Tattoo Removal Post Care Instructions**

### **Days 1-3**

**Apply Silvadene Cream to affected area twice daily for the first 3 days. On the 3<sup>rd</sup> day after your treatment follow-up with your skin care esthetician so she can answer any questions you may have.**

### **Days 4-10**

**If blistering or burning occurs (which is normal) she may suggest alternating application of Neosporin and Hydrogen Peroxide two times per day for the next seven days. Again, make sure you have called and spoken to your skin care esthetician for your follow up phone call.**

### **Day 10-14**

**Plan and schedule appointment for MegaPeel treatment (micro-dermabrasion) two weeks post treatment. At this time, your esthetician may recommend a corrective home care routine at this time.**

### **You Must Wait 6 Weeks Between Tattoo Removal Treatments**

**Other skin care treatments or corrective home care routines may be recommended during this time by your skin care esthetician. It is very important to follow these instructions and advice of your skin care esthetician to obtain maximum results.**
